https://www.youtube.com/watch?v=tE_jeSwv49k. Logically hard, brain demanding - that is what I wanted. Very good mod. It belongs to the best of mods/custom maps in Portal and Portal 2.. thsi is the worst thing ever. It's a very addicting clicker that stands out from the rest. I love every bit of it and it would be a great tradition to play it around election time every four years! I really love the game so don't expect to follow that tradition.. <http://www.wargamer.com/reviews/review-the-seven-years-war-1756-1763-part-1/>. Disregard my playtime I let this game run in the background alot.
My total playtime is more in the 50h range.

I wasn't all that familiar with Yuzusoft VNs before, but this one turned me into a fan.

Art: Nothing to complain at all. The Character art is fantastic.

Music: Is not to noticeable overall, but I noticed myself humming along to some of the tracks. Some of the Ending Songs are great too.

Story: Nothing worth mentioning. The Characters are the stars of the show and I loved all of them.

Routes: The Game offers 5 Routes (one of them has to be unlocked by finishing 1 route first).
Most of the routes were really enjoyable to me.
The one route that made me want to punch my monitor many times was Tsumugis (sorry tsumugi fans).
A certain prominent character in that route is beyond annoying and ruined my enjoyment.

I recommend this to anyone who enjoys beeing assaulted by cuteness.
I don't have anything to add what hasn't been said already.

Meguru is best girl.. A fun little game. I enjoy the soundtrack muchly. :D. Excellent. Deserves its high reviews.
This is a point and click style casual adventure game, with some "use the item / shape" type hidden object scenes.
I found it entertaining and well-designed. When I was done, I wanted a sequel.
Note: there are definitely a few jump scares, and the atmosphere is creepy at times; nothing I'd classify as horror, but something to bear in mind

I liked the title song - very cool.

There were a few places with dialogue choices, but I couldn't tell if the answers mattered (except for one easy achievement).
That aspect felt unfinished, somehow - as if they'd planned for more complexity, then decided against it. That said, it was nice to be able to choose my character's overall personality through those choices.

A very solid 9.5 out of 10 for me for this type of game. I still want a sequel - is there one?. Pleasant little puzzle game. EDIT:
The bug has been fixed, I can now recommend this game, it's a fun one.

Sadly I cannot recommend this game, I've had around 7 runs and twice the screen has gone black and it's unplayable, but making it worse I have to do a hard reset on my pc which is just unacceptable.

I'm running one of the most common set ups and have no issues with any other game
i7 5970k
970gtx
16gig ram etc etc

It's a shame because it's a good game when it's working, and maybe I could forgive the crashes if they wasn't so serve that it locks my pc up.

If the devs are listening, during the black screen, if I press start on my control pad to go into the menu, it will but there is no

text, just the gui without text.

I hope you can fix that issue, until then I cannot recommend this game.

An excellent followup to the free first in the series. The gameplay and graphics are tighter and the "dating" powerup system adds a surprising amount of depth. The sense of artistic design in these games is really something splendid to behold--there's so much beauty packed into these simple, pre-PC style pixels, and as in the first, a satisfying story resolution. Apparently this didn't sell super well, so they aren't sure when or if they're making a sequel, but I hope more people will pick up on this gem... after all, that 3 bucks for a breezy game with replay value is money easily given and well spent.. Amazing modern Duke Nukem style shooter. I love the detailing and the feel of the gameplay is just amazing! The bonus of the dark comedy attached to the spectacular shooting feel with blood flying everywhere makes this a must play!

-5/5 unreal gameplay. Very fun CYOA game. The choices and the characters are well developed. You can feel yourself get pulled into the story and really consider each choice before pulling the trigger. The only downside is I thought it was a tad short, but for 3\$, it is well worth the price.. This game is non-"user friendly".

The beginning boss is terrible strong. The whole screen full with colourful bullets until u can't response at all. It is impossible to hide from these terrible "attacks". The life is difficult, why you still playing more difficult game to suffer???. great game well made i love it
