The latest version of Skype for Windows is Skype 11 Skype's refund policy states that they will provide refunds in full if customers have used less than 1 euro.. The fact that Skype has become a reference point when it comes to regular calls and video calling is no coincidence: it's a real all-rounder.. In addition, Skype lets you call regular telephone numbers worldwide at a reduced rate, which is then deducted from your balance.. Its main interest lies in where it's becoming something of a benchmark They're free, although if you want to make group video calls of up to 10 people, then you need to pay.. Video calls, the star function of the program, didn't appear until two years later, along with a range of functions that eventually disappeared over time, including Skypecast, SkypeFind, and even sending money.
